7. On Monday, November 4, Dave Bunn and I had the opportunity to attend a training for the ALICE (Alert, Lockdown, Inform, Counter, Evacuate) program at JWP schools. ALICE Training Programs & Services increase your student and employee odds of survival during a violent intruder event. ALICE Training goes beyond lockdown methods by providing individuals with a new set of skills that will greatly increase their odds of survival during an active shooter situation. The **Risk Assessments** ensure your organization's response preparedness during and after an active shooter event.

8. On Thursday, November 7, District Staff participated in an 8-hour training related to cultural competency. Three individuals from PELSB Organization, connected to MDE (the Professional Educator Licensing and Standards Board) were present, working with our staff. This training promoted self-reflection and discussion on several diverse topics. The program has been designed to deepen teacher's understanding of their own frames of reference, the potential bias in their frames, and in our school communities.

9. On Friday, November 8 twenty-two teachers from the elementary met with Behavioral Analysts Barbara Carlson Litscher and Shari Brenner from the Southwest Metro Independent School District. Their presentation focused on Working With Children That Display Challenging Behaviors. Their message included:

- What is Applied Behavior Analysis?
- Why do kids demonstrate challenging behaviors?
- What are the Antecedents and Consequences that modify a behavior?
- How do I prevent challenging behavior from occurring?
- How do I respond to challenging behavior?
